## **Talal Abu Zarifa, member of the political bureau of the Democratic Front for the Liberation of Palestine, in statements to the media**

- 2023-10-13
  - The occupation is becoming increasingly brutal and criminal in targeting defenseless civilians, especially children and women, and displacing hundreds of thousands, taking advantage of the silence of the international community, which encourages it to commit more crimes against our people .
  - US Secretary of State Blinken's impudent statements are blatantly biased and express the United States' partnership in the war of extermination waged by the occupying state against our people in the Gaza Strip.
  - Targeting women and children is a crime that will not pass without the occupation paying a price for it, and international institutions that have signed the Children's Convention must condemn this criminal behavior and hold Israel accountable for its crimes against the children of Palestine.
  - The steadfastness of our people and their embrace of the resistance will fail the occupation's aggression, and expand the impact of the Al-Aqsa Flood Battle on the occupation.
-

- Neighboring Arab countries are called upon to confront American pressure on the Gaza Strip by allowing the entry of relief and medical supplies into Gaza to save it from the disaster that befell it.
- UNRWA is still failing in its role in providing relief to those displaced from their homes as a result of the occupation's aggression, and there is no justification for this failure.

## **Statements of Talal Abu Zarifa, member of the Political Bureau of the Democratic Front:**

- 2023-10-12

Israel's use of white phosphorus in its bombing of civilian homes is a new war crime committed in the absence of international accountability and a flagrant violation of international humanitarian law

The policy of extermination and scorched earth pursued by the government of the fascist entity will not undermine the will of our people to stand firm and rally around their valiant resistance

We call on the sister Arab Republic of Egypt to immediately open the Rafah land crossing for humanitarian and medical aid without waiting for the approval of the United States of America and the occupying power, because Egypt, with its Arab status and role, does not need permission from anyone

The workers sector of the Democratic Front for the Liberation of Palestine participated in the national solidarity meeting in support of the people and the Palestinian resistance, which was organized by the National Federation of Trade Unions and Employees in Lebanon, at the union's headquarters in Wata Lamsaytbeh in the .Lebanese capital, Beirut

A speech by the labor sector delivered by a member of its leadership in Lebanon, trade union comrade Abu Imad Shatila, in which he said: Today we meet before a new victory achieved by our people and their valiant resistance in the battle of the Al-Aqsa flood, a victory that proves once again that resistance is the choice of the people and the shortest way to shorten sacrifices and achieve victory, a victory that put the Zionist extremist government in A state of confusion and collapse, which prompted it to launch a barbaric aggression against our people in Gaza by land, sea and air, resulting in more than a thousand martyrs and five thousand wounded, imposing a stifling siege, with no food or medical supplies, simultaneously with the running out of fuel, power .outages, and scarcity of drinking water

The genocidal war waged by the occupation will not deter our people from continuing the path of resistance. Shatila added, saying, "We stand with reverence before the martyrs who rose to the heights of glory and immortality, and we bow in appreciation and reverence to the valiant resistance and its military formations, and in particular we mention the National Resistance Brigades, the forces of the martyr Omar Al-Qasim, stressing the unity of the battlefields and the battlefield in the confrontation, demanding the restoration of political unity through the implementation of the national consensus

decisions, first and foremost.” Decisions of the National and Central Councils. He concluded by calling for tomorrow, Friday, to be turned into a day of comprehensive anger at home, in the diaspora, and in all countries of the world, in support of the resistance in the Battle of Al-Aqsa Flood, and in condemnation of the occupation and the genocidal massacres committed against civilians in proud Gaza, in defense of the national project and legitimate rights

O steadfast and resilient masses of our Palestinian people,

O masses of our Arab nation,

O free people of the world,

The saga of the Al-Aqsa Flood, executed by the Palestinian resistance in Gaza, came as a qualitative milestone in the Palestinian national struggle, extending for more than a century, to attain its legitimate historical rights of freedom, independence, and self-determination.

The unparalleled bombardment by the Zionist war machine against our people in the besieged strip, which resulted in numerous massacres, bombings of houses over their inhabitants, erasing entire residential squares, targeting journalists and medical teams, cutting off water, electricity, fuel, and food from the strip, are all but failed attempts to paint a false image of victory over the corpses and blood of our children, women, and elderly in the strip. It is also an exploitation of the Western American cover to entirely obliterate the Palestinian cause, which is the renewed old project of Netanyahu's government that aims to end the conflict, annex the West Bank, Judaize Al-Aqsa, and execute the prisoners.

It has become essential to intensify the support and solidarity with our people in the strip, both Palestinian, Arab, and internationally. Therefore,

---

we in the Popular Front for the Liberation of Palestine issue this important call to:

1. Urge the masses of our people everywhere, in the homeland and in the diaspora, to massively and widely take to the streets, to rise against the occupation, and to openly clash with it, expressing a state of cohesion with our people in the strip in its ongoing battle. The coming Friday should be a day of escalation for Gaza.
  2. Call on our people in the West Bank, inside “israel,” and the sons of our Arab nation to urgently organize relief convoys to Gaza, prioritizing medical supplies and fuel.
  3. Call on the national, nationalist, progressive, leftist Arab and international forces, Arab masses, the free people of the world, and international sympathizers to organize stands in front of the enemy’s embassies, embassies of countries participating in the aggression, and international institutions worldwide, to denounce the crimes of the occupation and to reject international bias and collusion with the zionist entity.
  4. The need for international and human rights institutions to document the crimes of the fascist occupation, expose them to the world, urge the international community to take up its responsibilities, perform its duties, condemn the brutal acts committed by the zionist entity against unarmed civilians inside the strip, unite the efforts of all opposing forces to face the occupation and defend the Palestinian narrative against the false zionist narrative, affirming that what the resistance does is in self-defense, and is a natural response to the continued occupation and aggression.
  5. Demand the International Criminal Court to open an investigation into the massacres and war crimes committed by the zionist occupation in the Gaza Strip.
  6. Confront the hostile American and Western behavior against our people, which is biased towards the zionist entity and is complicit in its aggression against our Palestinian people, continuing its colonial past in aggression, extermination wars, and the European positions hostile to the rights of our people.
  7. The unjust international community should stop its double standards. This world, which laments those captured in the
-

settlements surrounding Gaza. Doesn't it see that there are 7,000 Palestinian prisoners languishing for decades in the occupation's prisons? Doesn't this world realize that the problem lies in the presence of the occupation that has occupied our land and our sanctities for 75 years? These dual policies in their standards and this blatant violation of the rights of our people will only bring more fire and blood.

What our heroic Palestinian people in the steadfast strip are exposed to, a war of extermination that makes humanity shudder, imposes upon us urgent action and uprising against zionist criminality and its supporters, especially since the US administration and the Western system are aligned to the point of partnership with the zionist entity to continue its crimes against our people.

## **Haitham Abdo: The Al-Aqsa flood must constitute an incentive for the people of our nation to engage in the battle to restore their rights**

Published October 8, 2023 | 18:50

The official of the Popular Front for the Liberation of Palestine in Lebanon, Haitham Abdo, affirmed that the heroic achievements achieved by the Palestinian people and their resistance forces in the Battle of Al-Aqsa Flood should constitute a motivation for all the sons of the Palestinian people, regardless of their forces and components, and an incentive for all the honorable and free people of our nation to engage in the battle to restore the full rights of our nation, and in the forefront of which is liberating Palestine and its sanctities from the filth of occupation, achieving its ambitions to get rid of the domination of colonial powers and investing its capabilities and wealth in serving the aspirations of the peoples of our nation towards a bright future for future generations.

This came during the solidarity stand called for by the Lebanese Communist Party in support of the Palestinian people and their valiant resistance, on Sunday in Riad Solh Square, in the center of the Lebanese capital, Beirut, in the presence of the Secretary-General of the Party, Hanna Gharib, and representatives of the Lebanese and Palestinian parties and factions.

The participants in the protest raised the Palestinian and Lebanese flags, and included a speech by the Secretary-General of the Party, Hanna Gharib, by the official of the Popular Front in Lebanon, Haitham Abdo, and a number of representatives of the participating factions.

Abdo paid tribute to Beirut, which humiliated the occupation and made it defeat the occupation and its continued aggression against the Palestinian people, who will always remain committed to their rights. Firm nationalism that is not subject to negotiation or barter, and resistance in all its forms, foremost among which is armed struggle, as a path to liberating Palestine from its sea to its river, and for the right of refugees to return to their land and homes.”

Abdo thanked the comrades in the Lebanese Communist Party for their initiative in calling for a solidarity stance to affirm the unity of all resistance forces in our nation, to achieve their goals and ambitions, foremost among which is the liberation of Palestine, restoring the nation’s dignity, depriving the colonial powers of control over their capabilities and capabilities, and realizing their ambitions to build a bright future for future generations. Stressing that the Palestinian

people today, whom the Zionist enemy and its supporters have always bet on breaking their will and forcing surrender and defeat on them, and at a time when the occupation leaders thought that, in light of the world's preoccupation with what is happening at the global level, and taking advantage of the moment in which some regimes and their rulers are rushing to normalize relations with... The usurping entity state, in an attempt to pass the conspiracy to erase and end the Palestinian cause, escalates its brutal practices and continuous aggression, by targeting people, trees and stones, desecrating holy sites, Judaizing the land, intensifying settlement, the policy of field executions, storming cities, villages and camps, the policy of unjust siege, and arrest campaigns. Its randomness and brutal practices against the prisoners of our people inside Zionist prisons and detention centers.

Abdo stressed that, despite all these circumstances and practices, here are our people and their fighting brigades, today writing a heroic epic of pride and dignity, surprising the leaders of the occupation and its security and military apparatuses, directing a resounding slap at them and inflicting on them a terrible defeat. They storm the forts and military sites, and our people's fighters are able to take control. On many barracks, military sites, and settlements, and waging war for the first time in the history of the Arab-Zionist conflict, on the land of historic Palestine, and in the heart of the Zionist settlements, and smearing the noses of the Zionists with the mud of defeat, and attacking its territories, cities, and towns with thousands of blessed missiles and shells, and sending to hell dozens of senior The leaders of the Zionist army, its soldiers and herds of settlers, it wounded hundreds of the occupation army and its settlers, captured dozens of soldiers and settlers, seized the weapons and ammunition of the enemy army, destroyed its vehicles and armored vehicles, and confirmed with its steadfastness and resistance, and the sacrifices of its sons, the possibility of achieving complete victory over the occupying state.

Abdo pointed out that what happened at dawn yesterday, Saturday, when our people, the free people of our nation, and the world woke up to the news, scenes, and pictures reported by the media that warmed the hearts of all our people, our nation, and the free people of the world, of the military and security achievements achieved by the

---

resistance men in the arenas of heroism and honor, while he woke up. The leaders of the occupation, its security services, the flocks of its settlers, and its allies and supporters received news of the humiliation, disgrace, and collapse in the Al-Aqsa Flood Battle, which was fought, managed, and executed with all precision and ability by the military wings of the Palestinian resistance factions in a unified scene that restored the spirit of the nation whose will they had always tried to break, and the spirit of resistance killed in it.

Abdo praised what the resistance was able to achieve, over the past hours, and continues to humiliate the enemy, and despite all the massacres it commits against innocent people, it targets hospitals, residential towers, and civilian homes, and in his belief that by escalating its aggression and massacres, it is capable of breaking the will and resolve of our people. In these fateful times, we in the Popular Front affirm that the battle of Al-Aqsa Flood is the battle of the entire Palestinian people, just as it is the battle of all the free people of our nation and the honorable people of the world, and it is a battle in the context of an open existential war until the occupation is defeated and all of Palestine is liberated.

Abdo called on all the members of our heroic people, throughout the land of historic Palestine, to actively participate in this battle, each with the capabilities he possesses. He also called on the members of the Palestinian security services to participate in the battle of the Palestinian people against the enemy.

Abdo explained that this battle, which comes at its time, coinciding with the anniversary of the glorious October War, should constitute a strong motivation and incentive for the people of our Arab and Islamic nation, to bear their national historical and moral responsibilities, in the existential conflict with the occupying state, as this is the day in which the nature of the conflict is restored. Restoring the dignity of the nation, confirming the possibility of achieving strategic victory over the enemy, opening the door to return, and rewriting the history of Palestine and the nation.

Abdo concluded, addressing all the enemies of our people and our nation, by affirming that the war is open and what is coming is greater,

---

and the resistance will continue as long as the occupation remains in place. He also addressed the peoples of our nation and the free people of the world by saying: “The Palestinian people will remain, as you have known them, lofty and resistant, raising the banner of resistance until liberation and victory,” pledging to our people. Our nation will continue on the path of the martyrs in order to preserve their blood and sacrifices, and to achieve the goals for which they were martyred

# **The American administration’s decision to provide support to the entity is aimed at circumventing the strategic outcomes of the Al-Aqsa Flood Battle**

08 October 2023 | 18:00

The Popular Front for the Liberation of Palestine confirmed today, Sunday, that US President Joe Biden’s decision to provide all forms of support to the Zionist entity comes in the context of continued American support for Zionist terrorist aggressive crimes, stemming from the depth of the organic partnership, which always aims to liquidate the inalienable national rights of the Palestinian people.

The Front stressed that the statements of the American President, which were similar to similar statements by NATO, express the state of shock and astonishment at the defeat and humiliation that the Zionist entity suffered in front of the Palestinian resistance. It also represents an authorization and a green light for the Zionist entity to launch more aggression and massacres against safe, defenseless Palestinian civilians. .

---

The Front considered that the American administration hastened these urgent decisions to try to contain the strategic results of the Al-Aqsa Flood Battle and its major repercussions on the Zionist entity, and its negative repercussions on its presence and plans to control the region.

The Front pointed out that when the American administration emphasizes the right of the Zionist entity to defend itself, it ignores that it has thwarted hundreds of draft resolutions to condemn the massacres and crimes of the Zionist entity in the UN Security Council through a veto vote, and has always sought to block calls rejecting the entity's survival. The Zionists are above international law, and continue to ignore the role of the United Nations and international legitimacy resolutions regarding the Palestinian issue, replacing them with an American reference biased towards the Zionist entity.

The Front concluded by emphasizing the necessity of exploiting the historical opportunity after the strategic achievements achieved by the resistance in Gaza in addition to the stormy international transformations, by calling for the formation of the largest international global front that brings together the living forces and the free people of the world to confront global imperialism and its protege the Zionist entity and to confront the American-Zionist plans in the region.

# **Popular Front: This is a day when the nature of the conflict and the dignity of the Arab nation are restored**

07 October 2023 | 10:25

The Popular Front for the Liberation of Palestine said that the steadfast mountains of resistance came out united in response to the call of Palestine, the call of Jerusalem and Al-Aqsa, in which the nature of the conflict is restored and the dignity of the Arab nation is restored, determined to achieve a strategic victory over this enemy in a battle that will open the door to return and redraw the history of Palestine and the region. .

The Popular Front called on our heroic people throughout Palestine to participate actively in the battle of the “Al-Aqsa Flood.” Both from its location and the tools it possesses, to attack the enemy army and its settlers, cut off its supply routes, sabotage its vital installations, and pursue the terrified Zionist invaders in the face of resistance strikes and their agent of strikes in every inch of the land of Palestine.

The Front stressed its call to everyone who bears arms, especially members of the security services, to engage in the battle of the people of Palestine against their enemy, and to take a position in the natural position of every free Palestinian who struggles to get rid of the occupation and achieve the goals and rights of all our people.

The Front said that the timing of the battle coinciding with the glorious October War is a call to the people of the Arab nation and the peoples of the region to realize their position in the overall conflict with the Zionist enemy and in this particular battle, and to carry out their duties alongside the sons of their revolutionary, fighting people in occupied Palestine.

# Issued by the Martyr Abu Ali Mustafa Brigades, the military wing of the Popular Front for the Liberation of Palestine

07 October 2023 | 11:50

Martyr Abu Ali Mustafa Brigades: The battle of “Al-Aqsa Flood” is the battle of the Palestinian people and all the resistance forces.

In light of the heroic scenes drawn by the heroes of the resistance inside our occupied territories, the moments of pride and pride they inaugurate, and the heroic epic they are waging, we in the Martyr Abu Ali Mustafa Brigades affirm the following: 1. This heroic battle is the beginning of the defeat of this enemy and his departure from our land, and it will not be erased

. From the awareness and conscience of the Arab nation.

2. We declare a state of maximum alert among the ranks of our fighters, and we work on the ground in several axes alongside our comrades in blood and arms.

3. We stand with our brothers in the Al-Qassam Brigades and with all the resistance forces, and we join with them in this battle that will be recorded in history.

04 October 2023 | 23:25

The Popular Front for the Liberation of Palestine confirmed that the frenzied Zionist campaign launched by the occupation forces against our people in the occupied West Bank will not deter our people from continuing the path of resistance and confronting the continuing crimes of the occupation.

The Front considered that the occupation forces' escalation of the raids on Al-Aqsa Mosque and the storming of the city of Nablus, and the continued raids on homes, and the tampering and sabotage of infrastructure, the destruction and burning of property, the theft of some personal belongings, and the arrest of young men, is part of the systematic Zionist campaign targeting the resistance in the occupied

Urgent call

Brothers and comrades, general secretaries and heads of parties and national and progressive forces in the Arab world

Brothers...dear sisters...

Greetings of Jerusalem... Greetings of Arabism...

In live broadcast on Arab and international television screens, for the fourth day in a row, Israel is committing the most heinous crimes against Palestinian civilians, children, women and the elderly in the Gaza Strip, using all its aircraft, warships, artillery, tanks, missiles, phosphorus bombs and internationally banned napalm, all of this taking place in silence. My world is suspicious... They are committing brutal massacres, bombing homes, homes, and residential towers above their residents... and slaughtering children, women, ambulance men, doctors, and journalists,

---

in an attempt to restore honor to their terrible defeat before the freedom fighters of our people, who have been defending their freedom and the justice of their cause, for more than a hundred years. They sacrifice their lives in defense of the honor of the Arab and Islamic nation...

Comrades of struggle...comrades of freedom and dignity.....

I ask you by God and your living consciences... Is it permissible for us to remain silent in the face of the destruction of Gaza and the deprivation of more than two and a half million people of electricity, water and food!!? How long will we continue to watch what is happening without doing anything to support this bereaved and oppressed people? The crimes of the Zionist entity against our people have surpassed the crimes of Nazism during World War II... They do not pay any attention to the heavenly and international laws and regulations... They destroy everything... Something in Gaza... We appeal to you from here, from Jerusalem... the journey of the Prophet Muhammad, may God bless him and grant him peace... from the resurrection of Jesus Christ, peace be upon him, to do something for the sake of Palestine and its people... at least by taking your masses to the streets to raise your voice loudly, against these crimes. The atrocity being committed in Gaza... shower the United Nations and your friends in parties around the world with your messages, and ask them for support and solidarity with our

---

people who are fighting for their legitimate rights... for freedom...

O sons of Arabism.....

What is required today, not tomorrow, is to go out with major marches in your capitals and in each of your Arab cities, and to sit in front of the human rights and international institutions in your countries to express your loud cry against the massacres and crimes against humanity that the Zionist entity is carrying out... Be fully confident that our struggling Palestinian people will not He will never surrender, and he will not raise the white flag... and he will continue to raise the banner of freedom until victory is achieved for our people and our glorious Arab and Islamic nation...

Long live our people... long live a free Arab Palestine...  
long live our glorious Arab nation...

## **Urgent appeal**

**For leftist and progressive parties and forces, solidarity movements, and free people of the world  
People's Party: Let the occupation's terrorism and brutal aggression against the Palestinian people stop**

Yesterday evening, Wednesday, the Palestinian People's Party launched an urgent appeal in several languages, addressed to the leftist and progressive parties and forces, solidarity movements, friends of our people, and free people of the world, calling for the necessity and speed of action by all possible means in order to stop the aggression .and open war against the Palestinian people

:Below is the text of the appeal

In this urgent appeal, the Palestinian People's Party addresses all parties, leftist and progressive forces, solidarity movements, friends of our people, and the free people of the world, with the necessity and speed of action and pressure on the governments of your countries and their decision-makers, and on all international bodies, through demonstrations and protest sit-ins and through all possible means, in :order to

Urgent intervention to stop the war and bloody aggression launched by the Israeli occupation state with all its army and military machinery since last Saturday against our besieged Palestinian people in the Gaza Strip, where Israeli warplanes, battleships and artillery continue their

---

widespread and intense indiscriminate bombardment of residential neighborhoods and all civilian facilities, including hospitals and centers. Health, food supplies, places of worship, education, medical, service, and media staff, which has so far resulted in the killing of more than a thousand Palestinian civilians, and the wounding of more than five thousand others with various injuries, including hundreds in critical and dangerous conditions, and most of these victims are children, women, and the elderly. , including the extermination of entire families, and the widespread destruction and devastation that affected a huge number of buildings, facilities and civilian infrastructure, including many suburbs and neighborhoods that were leveled to the ground, which led to the displacement and displacement of more than 250 thousand people, as a result of this aggression carried out. The policy of scorched earth, genocide and forced population displacement continues. This is in addition to the crime of tightening the siege on more than two hundred thousand people of color living in the Gaza Strip, and cutting off their supplies of water, electricity, fuel, .food, medicines, and medical supplies

While making this appeal, the People's Party calls upon you and demands that you expose and expose this open and systematic war against our people in all the occupied Palestinian territories - the West Bank, the Gaza Strip and Jerusalem - which Israel is carrying out as an occupying power, with incitement and explicit and declared support from the United States of America, which has devoted its military capabilities to Intelligence and its various media machines to mislead world public opinion about the reality of what is happening in Palestine and the Middle East, and to cover up the war crimes committed by Israel and its terrorist and racist practices against our Palestinian people, and in order to curb all of Israel's policies and practices and oblige it to adhere to international laws and conventions to protect .human rights, and implement the decisions of legitimacy. ## **The People's Party: The United States is a true partner of the occupation and a fundamental obstacle to the liberation of the Palestinian people and the Arab peoples, and calls on everyone to confront it**

The Palestinian People's Party affirmed its strong condemnation of the American administration's position based on denying the rights of our people and their just struggle, and its continued bias towards the occupation, which is now being expressed through moving American aircraft carriers and warships towards the eastern Mediterranean, and opening weapons depots to the occupying state. To commit more war crimes and massacres against the Palestinian people, and blatant intervention to pressure many countries to condemn the legitimate resistance of our people, and to provide cover and immunity for the crimes committed by the occupation and preparing to expand them in the Gaza Strip and the West Bank

While the People's Party considered the American administration a real partner of Israel and a supporter of its policies and crimes, as well as the haste of some countries within its orbit to give the occupying state the green light to launch a massive aggression against the Gaza Strip under flimsy justifications, which also places it in the position of a real partner of Israel, the party called for the necessity of Urgent action at all regional and international levels in order to curb American trends and policies, and push the international community to secure international protection for our people, stressing the necessity of confronting these policies, strengthening the national struggle and resisting the occupation

The Palestinian People's Party affirmed that the United States is once again proving that it is the main obstacle to the liberation of the Palestinian people and the Arab peoples, and calls on everyone to confront it

## **All support for the Palestinian resistance in the face of the fascist and Nazi occupation**

2023-10-07

The Palestinian Communist Party declares its absolute bias towards the resistance of our Palestinian people, which culminated this morning in the comprehensive attack on the settlements surrounding the Gaza Strip, which was called the Al-Aqsa Flood. What did the Zionist enemy expect as a result of its racist and fascist policy, the policy of killing, abuse, attacks on sanctities, and confiscation of lands? This is the logical result of all the orgy and persistence of the occupier. As a result of the failure of the Palestinian Authority, which did nothing but verbally condemn these repeated Zionist attacks and violations. As we in the Palestine Communist Party declare our absolute bias towards the side of our resistance and our people in the face of Zionist attacks, we emphasize the importance of unity in the arenas and not leaving the besieged Gaza Strip to face this battle alone. The Palestine Communist Party also calls on the masses of our Arab nation and the masses of free peoples to go out with demonstrations in various cities and countries. In order to support the resistance of our people and send a clear message to all the normalizers and captors that the cause of our people will remain tall and will not be folded or forgotten due to their inability and pleading on the threshold of the entity state. Glory and eternity to the martyrs, speedy recovery to the prisoners. Long live the struggle of the Palestinian people, and we are inevitably victorious. The Palestinian Communist Party

**STOP MASS KILLINGS**

**Ramallah: The Political Bureau of the Palestinian Popular Struggle Front held the extremist fascist occupation government responsible for the military escalation and continued aggression against our people, their land, and their sanctities.**

He said that the occupying state's denial of the rights of our people, the closing of the horizon for a political settlement, the invasion of the occupation forces and settlers by imposing unilateral measures, the expansion of settlement and annexation, and the targeting of Palestinian cities and camps with daily raids, killing, assassination and arrest, and daily violations against Christian and Islamic religious sanctities, especially in Jerusalem, have placed the region on the crater of a volcano. Its explosion is inevitable.

He continued that the development of events and the resistance action of our people, which the world witnessed today, which was manifested in the resistance to the occupation in the heart of its settlements and its usurps on the Gaza border, was a natural response to the crimes of the occupation, and he said that the rights of our people in their land and homeland are a red line that cannot and will not be allowed to be crossed as long as the sacrifices are made.

The Front's political office added that resistance is a legitimate right guaranteed by all international conventions, and called on the international community to assume its responsibilities towards our

people and provide them with protection, especially with the statements of the occupation leaders threatening reprisals against our people in the Gaza Strip.

The Political Bureau said that our people stand united in defending their rights and resisting the occupation and will not raise the white flag and will not surrender in the face of Israeli crime. It stressed that security and stability will never be at the expense of our people, and the region will not enjoy it unless the goals of our people in freedom, return, independence, and the establishment of an independent Palestinian state are achieved. Full sovereignty, with Jerusalem as its capital.
